

CSB-M81-094
21 October 1981

MEMORANDUM FOR: (See Distribution)

FROM: [REDACTED]

SUBJECT: M-28 Replacement Team Meeting (U)

1. On October 9, 1981, the M-28 Replacement Team held its third meeting. In attendance were the following:

OC-ED/CSB
OC-ED/CSB
OC-ED/CSB
OC-ED/CSB
OC-ED/CSB
OC-ED/CSB
OC-DND
OC-CSD
OC-ED/SIS
OC-CSD/EAB
OC-HRD/NCS
OC-FND/SS
OC-FND/SS

2. A final review of the functional specification was made. It was decided that the function Auto TI Generation should be placed in the nice-to-have category. (U)

3. The automatic paging of incoming messages has not been resolved yet. The present proposal is that all systems must recognize the form feed character. This is due to installed ROP's that are not programmable and thus cannot be modified to page automatically. The TRACOR 8000 can be programmed to accept either method of page control so the final decision will not affect the TRACOR 8000 program. (U)

4. FND advised us that KW-26 can be deleted from the test plan. (U)
